George P. Korpita, Designer
gpk@swoboda-engineering.com

Education:

Magnolia High School, Magnolia Texas – 1996

Bachelor of Science in Psychology

Texas A & M University, College Station – 2002

Professional History:

2001 – Present	Swoboda Engineering, MEP Designer
1998 – 2000	Fuqua Construction Company
1996 – 1998	Universal Computer Systems, Repair Bench

Professional Activities:

- ◆ Various training and education seminars on design techniques and best practices
- ◆ Autocad training and implementation

Professional Experience:

I have 10 years of experience designing in the MEP consulting business. In those 10 years I have had the opportunity to work on a wide variety of different disciplines from interior and exterior lighting, communication, fire alarm, emergency power, and security systems to HVAC and plumbing systems. Most of the experience I have is commercial but we have worked on a very small handful of large residential projects in the local area. The Swoboda firm has completed projects all over the great state of Texas, from one end to the other, which has given me experience designing in all kinds of climates and locations. Project experience includes restaurants, retail, banks, high rise office buildings, municipal facilities, courthouses and jails, fire stations, educational facilities, sports complexes, and industrial manufacturing plants.

Personal Activities:

- ◆ Navasota Volunteer Fire Department
- ◆ Marathon Runner
- ◆ Fishing every chance I get
